

NOTICE OF CONSTRUCTION

Publication date: April 2023

THE MEADOWAY - MEADOW RESTORATION & TRAIL CONSTRUCTION SECTION 6

Toronto and Region Conservation Authority (TRCA), in partnership with the City of Toronto, is undertaking the construction of The Meadoway, a project that will transform the existing Gattineau hydro corridor between the Don River Ravine and Rouge National Urban Park in Scarborough into a revitalized linear green space with restored meadow and a dedicated off-road multi-use trail network.

The first phase of implementation is planned for the section of hydro corridor between Military Trail to Conlins Road (see reverse). Meadoway restoration activities will include:

MEADOW RESTORATION ACTIVITIES

- Restoration of approximately 8 hectares of meadow habitat
- Mowing, tilling (turning over the soil), and seeding with cover crops (to be repeated several times throughout the growing season to prepare the soil for planting in the fall)
- Invasive plant management, buffer mowing and garbage collection

Anticipated restoration timeline — April 2023 to End of December 2023 between immediately west of Military Trail to Conlins Road

MULTI-USE TRAIL CONSTRUCTION

- Construction of the Section 6 Phase 1 trail (approx. 630 m of asphalt paved trail) including rest nodes, signage and line painting. Updated information will be circulated when the start date for implementation is confirmed.

Anticipated construction timeline — TBD

If you are interested in receiving more information about this project or being included on future updates, please contact:
